

# Stainless Steel Toilets

## Shrouded Back to wall S trap

**Product Code SSP-ABTWS**

**Material:**

The WC pan is manufactured from 1.6 and 1.2mm thick stainless steel.

**Outlet Trap:**

The WC pan is manufactured with a 100 mm overall diameter horizontal outlet with a 50mm deep water seal with a plastic WC connector to convert it into an S trap within the WC pan body.

**Seat:**

The WC pan comes as standard with a plain top, or can alternatively be supplied with seat holes or supplied with a black plastic seat and cover or fixed plastic seat pads.

**Inlet:**

The WC pan is manufactured with a 38mm diameter inlet pipe to accept a 38mm coupler and downpipe (not supplied).

**Fixings:**

The WC pan is supplied with front floor fixing lugs and through wall fixing bolts.

**Cistern and Flushpipe:**

As an option the WC pan can be supplied with a choice of plastic cisterns for concealed duct mounting.

**Options:**

- Black plastic seat and cover
- Black plastic seat pads
- No seat
- Choice of cisterns
