

Hospital Sink Top Single Bowl Double Drainer

Product Code STB

The HTM64 hospital sink top with single bowl and double drainer is made in accordance with the requirements of HTM64: Sanitary Assemblies (2006).

Description:

The hospital sink top is manufactured from 1.2mm thick satin polished grade 304 stainless steel. The unit is wall mounted and complete with wall brackets. All four sides are turned down and under with an anti drip edge. All internal corners and edges are rounded to aid cleaning.

Size:

1800mm long.
600mm wide.

Sink Bowl:

The sink bowl is 533 x 381 x 200mm deep and supplied without an overflow. The sink is supplied as standard with no tap holes, but can be supplied with two tap holes.

Waste Outlet:

The sink bowl has a 1 1/2" unslotted flush grated waste fitting without overflow, plug or chain.

Options:

Two or no tap holes.
Stainless steel front support legs.
Model ST A hospital sink top with single bowl and single drainer.
Model ST C hospital sink top with double bowl and single drainer.
Lever operated wall or sink taps.
HTM64 TMV3 thermostatic wall or sink taps.
