

Hospital Double Sink Double Bowl

Model SK2

Size:

The SK2 hospital pattern double sink bowl unit has an overall size of 1200 x 600 mm and is made in accordance with the requirements of HTM64: Sanitary Assemblies (2006).

Description:

The double sink unit model SK2 is manufactured from satin polished grade 304 stainless steel. The unit is wall mounted and complete with wall brackets. All four sides are turned down and under with an anti drip edge.

Sink Bowls:

The sink bowls are 500 x 400 x 200mm deep and are supplied without an overflow. The sink can be supplied with one, two, or no tap holes to each bowl.

Waste Outlet:

The sink bowls each have a 1 1/2" unslotted flush grated waste fitting without overflow, plug or chain.

Options:

- One, two or no tap holes to each bowl.
- Stainless steel front support legs.
- Single bowl model SK1 version is also available.
- Lever action wall or sink taps.
- HTM64 TMV3 thermostatic wall or sink taps.
