

Stainless Steel Drinking Fountain Junior Height Floor Standing

Product Code DFFSJ

Material:

The junior height drinking fountain is manufactured from 1.6mm thick satin polished stainless steel for durability and vandal resistance.

Design:

The floor standing junior height drinking fountain and under shroud has a radius front design to eliminate sharp corners and edges which makes it suitable for use in school and public buildings. The unit incorporates integral wall and floor fixing points which allow the drinking fountain to be easily installed. The under shroud is fully removable and held in place with security screws.

Fittings:

The Drinking Fountain comes complete with integral wall fixings, 32mm flush grated waste fitting, standard NSF approved chrome plated bubbler valve, and junior height shroud.

Options:

Optional cup / bottle filler instead of the bubbler valve.
WRAS approved bubbler valve (tap).

Alternative Models Available:

- Wall mounted drinking fountain.
- Wall mounted drinking fountain with under shroud.
- Floor standing adult height drinking fountain.
- Floor standing pedestal drinking fountain.
- Recessed drinking fountain.
- Combined drinking fountain and bottle filling station.
