

Stainless Steel Toilets

Wall Hung Toilet

Product Code WHT

Material:

The stainless steel wall hung toilet is manufactured from 1.6 thick satin polished stainless steel.

Outlet Trap:

The wall hung toilet is manufactured with a 100 mm overall diameter horizontal outlet.

Flushing Rim:

The wall hung toilet is supplied with a full flushing rim.

Seat:

The toilet pan comes as standard with a plain top, or a black plastic seat and cover can be specified.

Inlet:

The wall hung toilet is manufactured with a 55mm diameter flushpipe and comes complete with a 38mm rubber flushpipe connector.

Fixings:

The wall hung toilet is designed for front mounting onto an in wall installation frame. The wall hung toilet can also be front mounted onto a duct wall.

Cistern and Flushpipe:

As an option the WC pan can be supplied with a choice of plastic cisterns for concealed duct mounting, or an in wall installation frame incorporating a cistern.
