

## Wall Mounted Bottle Filler

**Product Code: WMBF**

### Waste Outlet:

The wall mounted bottle filling station is supplied with a 32mm (1 1/4 in) BSP flush grated waste fitting with flexible outlet pipe. A standard 32mm water trap (not supplied) will be required between the waste outlet and the building's waste pipework.

### Bottle Filling Valve:

The bottle filler is supplied with a WRAS approved chrome plated valve with on / off operation which is easily operated by hand or forearm to help prevent cross contamination.

### Pipework and Connections:

All interconnecting pipework and water fittings are WRAS approved to meet Water Regulations. The bottle filling valve is supplied with 15mm compression inlet connection.

### Options:

Foot operated model is also available.
