

# Vandal Resistant Press Button Non Concussive Time Flow Taps

Product Code : **NCTAP**

Chrome plated anti vandal press button time flow non concussive basin taps. The press button operation requires minimum operating force so is ideal for use in schools, nurseries, and care homes. Anti blocking cartridge means the water will only flow when the button is released, preventing deliberate jamming and potential flooding. The time flow operation is ideal for unsupervised areas and for water conservation. The taps are supplied in singles or pairs.

## Material:

Chrome plated brass body and head.

## Specification:

Soft touch press button non concussive self closing valve.

Anti blocking valve only allows water to flow once pressed and then released—preventing the valve being jammed on.

The tap will run for approximately 10 seconds at 1 bar water pressure.

1/2" threaded connection.

22mm tap hole (or larger) required.

WRAS approved.

## Pressures and Operating Conditions:

Max Inlet pressure: 5 bar.

Min inlet pressure: 0.1 bar.

Max inlet temperature: 65 degrees C.

Timed flow: 10 seconds at 1 bar.

Flow limiter to reduce flow to maximum of 3 litres per minute.
